Bonuscred - Cascavel, Brazil
Designed and executed visual content for diverse media platforms, employing Adobe Creative Suite for high-quality production.
Managed concurrent design projects, maintaining strict adherence to deadlines and client specifications.

EDUCATION AND TRAINING

Bachelor of Science, **Software Development**, **Expected in 08/2027**
BYU Idaho - Online
Relevant Coursework: Web Development, Database Systems, Object-Oriented Programming

PROJECTS

- GameWithUs Web App – Designed and built an interactive gaming discovery platform using HTML, CSS, and JavaScript. Integrated JSON data via Fetch API, implemented genre filters, and created dynamic modals for game details.
- Chamber of Commerce Site – Developed a responsive membership site with ES modules, localStorage integration, and dynamic data rendering to enhance user engagement.
- Virtual Art Gallery Database – Designed relational schema in MySQL, created ER diagrams, and wrote optimized SQL queries for artwork, artist, and exhibition reporting.
